## Frontend Developer

📞 9881283652 @ shivanimane43@gmail.com 🔗 [linkedin.com/in/shivanibmane](https://www.linkedin.com/in/shivanibmane)

### PROFESSIONAL SUMMARY

---

Skilled in self-learning and efficiently exploring and grasping new technologies like HTML, CSS, JavaScript, and React through dedicated research, online resources, and practical application, demonstrating adaptability and a successful transition from a non-technical background to the tech industry.

### TECH SKILLS

---

React   JavaScript   TypeScript   HTML   CSS

### PROJECTS

---

#### CRYPTO PRICE TRACKING

🔗 <https://crypto-place-ten-xi.vercel.app/>

- Displays the latest prices for popular Cryptocurrencies like Bitcoin, Ethereum, etc., updated frequently.
- Users can select a specific Cryptocurrency to view detailed price trends and historical data.
- Converts Cryptocurrency prices to various fiat currencies, such as USD, EUR, etc., ensuring broader accessibility.

---

#### MUSIC-PLAYER

🔗 <https://music-player-weld-alpha.vercel.app/>

- Created a music streaming platform with features like user playlists, song playback, and album browsing functionality.
- Implemented controls for play, pause, next, and previous, ensuring a seamless user experience.
- Utilized Context API for managing global state, including current song, playback status, and user playlists, maintaining a smooth and responsive UI.

---

#### STREAMLINE

🔗 <https://stremline.vercel.app/>

- Integrated user authentication enabling secure login and registration functionalities.
- Utilized Firebase Authentication to manage user accounts, ensuring secure and efficient user access and personalization
- Implemented on-click thumbnail video playback, providing seamless content viewing experiences

---

#### BOOK APPOINTMENT

🔗 <https://book-appointment-mu.vercel.app/>

- Developed a doctor appointment platform with user registration, dynamic specialty-based filtering, and easy navigation between specialized doctor directories.
- Designed a platform where users can view a specific doctor's appointment page, track the number of appointments booked, and access their profile with options to edit personal details seamlessly.

## EDUCATION

---

Bachelor of Commerce

Shivaji University , Kolhapur

2020-2023

## SOME OF KEY ACHIEVEMENTS

---

### ★ FROM NON-TECH BACKGROUND TO FRONTEND DEVELOPER: A JOURNEY OF PERSEVERANCE AND PASSION

I have a formal education in Non-Tech background, but I have always had a passion for computers, which led me to learn programming. I am a self-learner developer, having learned HTML, CSS, JavaScript, and ReactJS from YouTube in August 2024.

### ★ PROJECT HIGHLIGHTS

Built multiple projects, including a Cryptocurrency Portfolio Tracker, a Music Streaming Application, and a Streaming Platform Clone, incorporating real-time data fetching, user authentication, and data visualization using tools like Google Charts. Demonstrated adaptability and rapid learning abilities by self-learning technologies such as HTML, CSS, JavaScript, and React. Maintained a professional GitHub portfolio, organizing projects with clear documentation, showcasing project management, and version control skills.
